The Man Who Saw the Future: A Biography of William Lilly

Catherine Blackledge

Catherine Blackledge has bounded onto the astrological scene with her book *The Man Who Saw the Future: A Biography of William Lilly*. This is an interesting addition to the traditional astrology reading list as it sets the historical background for Lilly's practice as an astrologer in a time of great political upheaval. It is also an entertainingly warm and human look at the man whose astrological forecasting changed the course of the English Civil War. Packed with horary astrology aligned with historical events, this is a worthy addition to any bookshelf as it is suitable for everyone - astrologer or not. Hardback book £16.99 plus postage.

E-Books

I'm delighted to say that we are working our way through the older books to get them converted to Kindle format for all you ebook fans out there. If you read this email online the links will take you to Amazon.co.uk but obviously they are available on all Amazon websites. I'm not listing the prices as it varies depending on which country you are in. This is the list so far:
