Greetings, lovely people.

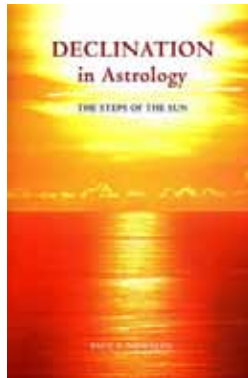

The period around the summer solstice (and the planetary configurations that surround it) has turned out to be way more disruptive than anyone could possibly have imagined, so I thought it might be nice to remind you of a fabulous book we published a while back by Paul F. Newman: *Declination, The Steps of the Sun*. And obviously we can't talk about the brilliance and movement of the Sun without considering the dark and mysterious power of the Moon, so I've included details of *Luna: The Astrological Moon*, also by Paul. I'm also delighted to help promote Brian Clark's lovely new books, *Vocation: The Astrology of Career, Creativity and Calling* and *The Family Legacy: Astrological Imprints on Life, Love & Relationships*.

Website update: our new website is definitely coming soon! I will be shouting from the rooftops when it is live so look out for an email from us in the coming weeks.

DECLINATION: THE STEPS OF THE SUN

Paul F. Newman £15.95 + postage

This comprehensive work not only teaches the ancient technique of declination, but it is also full of fascinating myths and traditions which form the cornerstone of our culture. The Sun's steps as it moves upwards and downwards between equinox and solstice mark off time in a different way and give extra breadth to the meaning and movement of the heavenly bodies. This book will also appeal to anyone who follows the natural rhythm of the solar and lunar festivals in the course of their everyday lives.

LUNA: THE ASTROLOGICAL MOON

Paul F. Newman £15.95 + postage

Whether as muse, silver goddess, nourishing mother, priestess, maid, siren or witch, the influence of the Moon on our personality and perception is one of the least understood factors in our daily lives. Luna has fascinated, inspired, and frightened us since the dawn of human history yet she is the clue to our most emotional and instinctive selves. A substantial amount of this fascinating book covers the Black Moon Lilith (the Moon at apogee).

VOCATION: THE ASTROLOGY OF CAREER, CREATIVITY AND CALLING

Brian Clark £18.99 + postage

Vocation is more than a job, a career or a pastime; it is the X-factor that fulfils the urge to be creative and employed in purposeful ways. Astrology is an ideal career counsellor, as it maps out the paths and patterns of your vocation. This essential guide offers both practical and poetic insights into discovering and manifesting our calling.

THE FAMILY LEGACY

Brian Clark £18.99 + postage

The Family Legacy introduces new ways of thinking about ancestors, parents and siblings, it also reveals familial patterns, complexes and legacies that can assist in the healing process and enhance relationships. Images of the family are encoded into the symbols of the horoscope therefore each individual's natal horoscope is systemic - its multidimensional symbols revealing the family system through time. This is a definitive study that will change your perception of you life, your loves and your relationships.
