Hi everyone!

Welcome to 2013. Finally. 2012 has without doubt been a challenging year, and especially with the hype surrounding 21st December there is a sense of relief that it is over and we can get on with our lives. However, as the outer planet configurations will be causing upheavals for some while yet, I have selected three books that will give us all some extra support and insight in these strange times. I am also delighted to introduce you to Sue Farebrother's beginner book, *Astrology Decoded*.

Wishing you well in 2013

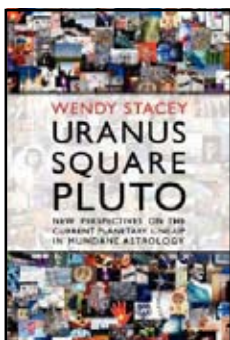

Margaret

## The Gods of Change: Pain, Crisis, and the Transits of Uranus, Neptune and Pluto

*Howard Sasportas*

This is one of our bestselling books and for good reason. Howard's wise and gentle guidance helps us to find a clearer path through the long and often difficult transits of the outer planets. Life isn't always easy. It's impossible to live deeply and not to feel pain or go through times of crisis, breakdown or major disruptive change. Although this is clearly inevitable, what is not always obvious is the crucial role pain and crisis play in the process of growth and evolution. While some people fall apart altogether and never make it through difficult times, many others emerge from conflict and turmoil renewed and transformed, indeed more fully alive. This lovely and important work teaches us how to respond to the transits of Uranus, Neptune and Pluto with calmness and a knowledge that the more we work with them, the more worthwhile will be the end result. £19.99 plus postage.

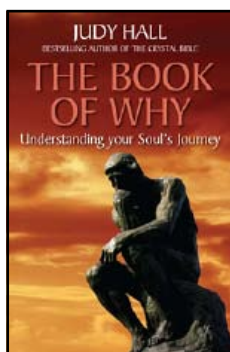

## Uranus Square Pluto: New Perspectives on the Current Planetary Line-Up in

Mundane Astrology

*Wendy Stacey*

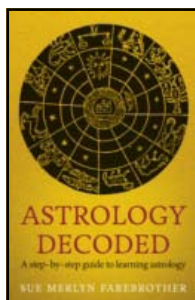

When Uranus and Pluto came to conjunction in the 1960s it spearheaded radical social, economic and political reform. The generation born during this conjunction has also changed society on every level and continues to do so. This is a new innovative book that gives a full interpretation of the up and coming Uranus-Pluto squares and other planetary alignments; it will be of great interest anyone with an interest in mundane charts and world events. £16.99 plus postage.

## The Book of Why: Understanding your Soul's Journey

*Judy Hall*

More than half the world's population believe in karma and reincarnation and it is in times of stress that we look to soulmates for support. However this doesn't always work the way we want it to, and from what is now widely recognised as interlife exploration it is clear that there are souls who still have a connection with a previous life that is way past its sell-by date. There are also souls who have chosen to undergo a specific life experience because they want to cultivate their soul or to offer service to humanity. In this wide-ranging book Judy Hall encompasses the vast kaleidoscope of karma and interlife choices. It seems especially relevant at this point in time. £17.50 plus postage.

## Astrology Decoded: A Step-by-Step guide to Learning Astrology

*Sue Farebrother*

Accessible, entertaining and informative, *Astrology Decoded* explains step by step how astrology works, when to use it and ways to take it further. In this fascinating guide expert astrologer Sue Merlyn Farebrother offers a practical and comprehensive course that will take you through the colourful ingredients that make up a birth chart, from the 12 zodiac signs to subtle astrological combinations and aspects, and the ways in which these express themselves through a person's character.
