New Year Greetings!

Delighted to tell you that we have some new books coming along very shortly, one of which is shown below, but look out for more soon. We also have a few slightly damaged books listed further down. Available in limited numbers only, so order as soon as you can if you are interested. Please note that our website does not show live availability so a book may show as being in stock when in fact it has sold. If this occurs we will contact you to see if you would like an alternative.

Warmest wishes for a happy, healthy and peaceful 2017.

DAY SIGNS

Native American Astrology from Ancient Mexico

Bruce Scofield

For those interested in astrology, it may come as a surprise to learn that the Maya and Aztecs of ancient Mexico and Central America developed a comprehensive system of signs and cycles, very little of which has survived in the indigenous population to the present day. Tantalizing pieces of this astrological system do exist but there are many parts missing. One thing is known, however, and that is the central role of the 20 named days called day-signs. It is the reconstruction and reinterpretation of these symbolic images that is the subject of this book, now in a new edition that includes the author's latest insights. £17.50 plus postage.
